Chapter 9

Green Technologies for Wastewater Treatment

T. Vasantha and N. V. V. Jyothi

Contents

9.1	Introduction	219
9.1.1	Characteristics and Treatment Technology of Wastewater	222
9.1.2	Waste Management	222
9.2	Green Chemistry	223
9.2.1	Need of Wastewater Treatment	223
9.2.2	Benefits	224
9.2.3	Information About Waste Management	224
9.2.4	Wastewater and the Necessity for Wastewater Management	225
9.2.5	The Physico-Chemical Treatment	227
9.2.6	Natal Treatment	227
9.2.7	Zilch Fluid Liberation Scheme	227
9.3	Green Technology (GT)	228
9.3.1	Class of Green Technology	228
9.3.2	Sectors of Green Technology	229
9.3.3	Advantages of Green Technologies (AGTs) Toward Wastewater Management	229
9.3.4	Objectives of Advanced Green Technologies (OAGTs)	230
9.3.5	Green Technology Four Pillars Policy	230
9.3.6	Benefits of Green Technology	230
9.3.7	Drawbacks of Adopting Green Technology	230
9.4	Jade Industry Initiative	231
9.4.1	Revenue and Employment Formation	231
9.4.2	Gung Ho and Sustainable Trade	231
9.4.3	Innate Resource Precautions	232
9.4.4	Ecological Executive	232
9.4.5	Industrial and Chemical Protection	232
9.4.6	Visual Aid the Lane	232
9.5	A. Greening of Diligence	232
9.5.1	Exploit Resources Powerfully	232
9.5.2	Lessen the Generation of Waste and Emission	233
9.5.3	Lessen Peril Allied with Chemical and (Perilous) Waste	233
9.6	B. Construction of Jade Industries Ascertain and Enlarges (Innovative) Jade Industries That Furnish Ecological Freight and Services To	233
9.6.1	Diminish, Recycle, and Reprocess Waste Materials	233
